WHEN:

16th November 2019 (afternoon tbd)

WHERE:

[GameOn](#) Conference 2019

Laisvės pr. 5, Vilnius 04215, Lithuania

WHY:

- *Because* you've heard that the Games industry is prospering and is the "next big thing".
- *Because* you're curious to learn more about what it means to invest in games from veterans in the business.
- *Because* you usually invest in innovation, technology or movies, and games is becoming a major player in the same fields.

The game industry will take you by surprise and you'll forget about your reservations towards games as being mainly shooter games with a dubious impact on the young. In truth, the field is so wide, it'll make you dizzy with opportunities.
